## BAT AGAINST BIRD!

Cold . . . hard . . . vicious! Who else but a cold-hearted, vicious villain would unleash a shrieking swarm of bats on the **Ice Princess**? Who but a power-mad monster would push her plunging down 30 stories to a terrible end? And use her tragedy as a fiendish plot to frame **The Caped**

**Crusader**! Who else but that flipper-fingered perpetrator of murderous deeds, **The Penguin**!

In a dark, brooding city of tricks and treachery, Batman takes on The Penguin and his brawling band of cohorts, **The Red Triangle Circus Gang**. On the slick ledges of skyscrapers, in the narrow galleries of an eerie cathedral, through the icy sewers under the city's heart, the masked master of justice clashes with fanged gargoyles, fire-eaters, skulled cyclists and tazer-toting clowns!

Batman has all his wonderful toys! A grappling hook for scaling dizzying heights. Batman's cape for swooping through air! Lethal **Batarangs**, smoke

bombs, deadly swarms of bats, a grappling gun! In the **Batmobile** and **Batskiboat**, the man behind the mask races through enemy-infested streets and poisoned sewers to battle Gotham City's crime wave!

But the deadliest enemies prowl the highest rooftops and tightest corners. Suddenly,

**Catwoman** leaps into the fight. The fickle feline mistress of whips tangles with Batman, slipping in and out of battle mysteriously, like an inky black cat, never to be trusted!

The pace is fierce. The action is furious. And there's only one way out: Take Back Gotham City!

## TAKE BACK GOTHAM CITY!

*"I believe the word you're looking for is AAAAUGGGHHH!"* — The Penguin

How do you clean up a city that thrives on crime? That relishes the dark, revels in the sinister and savors the pain and suffering of honest citizens?

You do it at night. You stalk the streets and scour the rooftops. During your battle against crime, you prowls abandoned stores and macabre cathedrals.

You infiltrate the enemy's lair, right down to the racing runaway trains and the icy, ominous sewers. And you do it alone. You travel in the Batmobile or Batskiboat and fight with all the firepower you have and you don't spare the ammo!

Play "Full Game" for the most complete nerve-wrenching action you've ever lived through! You'll combine the Driving and Platform games into one massive saga of pure Batman mayhem.

In the Batmobile, you'll scream through hairpin turns at face-razing speeds, blasting away at homicidal foes. When — and if — you reach your destination, you'll travel by foot, cape and grapple rope to hunt down the heinous Red Triangle Circus Gang and their preposterously grisly ring-

master, The Penguin! After each Platform Act, you'll take up another Driving Act, sometimes in the Batmobile, sometimes in the Batskiboat.

Or choose your fight, "Driving-Only" or "Platform Only," to face The Penguin's thugs on their turf — but on your terms. *Batman Returns* has 3 intense play modes. You gotta play it to believe it!

## THOSE FANTASTIC RACING TOYS (Full Game or Driving Only)

"A die for a die." — Catwoman

Get ready for a race to the death! When you see "Go!" press the **Turbo** button to blast off in the Batmobile and start a crusade against crime!

Use the **D-Pad** to steer LEFT and RIGHT; UP drives forward; DOWN puts on the brakes. Use your other button controls to fire your weapons

and kick in the speed. If you haven't changed your button controls, they will be:

**Button A Fire:** Shoot unlimited machine gun rounds. Hold down for a burst of rapid fire.

**Button B Turbo:** Hold down to continue accelerating; release to slow down.

**Button C Missile:** Launch heat-seeking missiles that home in on the nearest target.

**Start** Pause the action; resume play.

**Note:** See page 6 for more driving attacks.

Unload your ammo on the speeding goons ahead, while swerving to avoid gasoline bombs and other surprises. Your machine gun rounds are unlimited, but you should conserve the missiles for the really ugly customers. Bash into the trash cans with the flashing signals to pick up more

missiles. Stay on the road and away from obstacles! The only way to clear the stage is by annihilating all enemies or clearing all barriers within the time limit.

**Enemies:** How many criminal drivers you still have to destroy.

**Lives:** Your remaining lives. If you lose all your lives, the act ends. You can restart the act as long as you have Continues left (see page 21).

**Speed:** How fast you're traveling.

## A HOT TIME IN THE COLD TOWN (Full Game or Platform Only)

*"Actually, this is all just a bad dream."*  
— The Penguin

This city war takes on a weird twist — you start out at the top! In fact, you're clinging to some of the tallest skyscrapers and scaffoldings in Gotham City. And The Penguin and his powerhouse of costumed criminals are rallied against you. Choose your weapons carefully, and time your moves

perfectly. Make the bad guys take the fall!

Use the **D-Pad** to move LEFT and RIGHT. Look UP and DOWN before you leap, to check out what's above and below. Use your other button controls for combat. If you haven't changed them on the Options panel, they will be:

- Button A**    **Weapon Attack:** Launch a weapon from your Utility Belt; glide with Batman's cape during a jump.
- Button B**    **Hand Attack:** Punch in the direction you're facing; kick when you hold the **D-Pad** LEFT, RIGHT or DOWN.
- Button C**    **Jump/Grapple:** Jump; release your grapple rope when you hold the **D-Pad** UP.
- Start**        Pause the action to select weapons from the Utility Belt; resume a paused scene.

**Note:** See pages 6-7 for more special moves and attacks.

Score	Boss's Health	Lives	Weapons Left
	Your Health	Flight Power	Weapon in Use

**Score:** Your total points so far in the game.

**Your Health:** Your remaining stamina. The bar flashes when it gets low. If it disappears, you lose one life. You'll be restored to battle at that spot as long as you have lives left. You can regain some or all health with a Heart power-up (*see page 20*).

**Boss's Health:** A bar appears here when you confront one of your most mortal adversaries, such as Catwoman. These enemies are definitely bad for your health. As they weaken, though, this bar disappears. Reduce this bar to nothing (use your Utility Belt weapons) and you win!

**Lives:** Your remaining lives. If you lose all your lives, the act ends. You can restart the act from the beginning as long as you have Continues left (*see page 21*).

**Flight Power:** Your ability to glide with your cape (by pressing **Weapon Attack** during a fall).

**Weapon in Use:** The weapon currently selected from your Utility Belt.

**Weapons Left:** How many shots of your current weapon you have left. (The number flashes when you're low.) You can regain weapons by collecting power-ups (*see pages 16-17*).

## USING BATMAN'S UTILITY BELT

"You don't really think you'll win, do you?"

— The Penguin

What sets Batman apart is that he's always had the *best toys*. He carries an arsenal of deadly toys (make that *weapons*) under his belt.

Press **Start** to bring up your Utility Belt. Here's what you have when the game begins:

10 Regular  
Batarangs

3 Smoke  
Bombs

1 Swarm  
of Bats

1 Grappling  
Gun

1 Super-  
Seeking  
Batarang

Press the **D-Pad RIGHT** or **LEFT** to highlight the weapons. When you've chosen the weapon you want, press **Start** again to resume the action.

You start the action with at least one of each weapon. You can collect more weapons by collecting power-ups as you move through Gotham City and its surroundings.

The game screen shows how many shots remain of the weapon you're currently using (*see page 15*). When you use up a weapon, you'll automatically start using the weapon that's farthest to the left on the Utility Belt. (This is usually the regular Batarangs, unless they're all used up.) Weapons that are used up cannot be selected from the Utility Belt.

The Utility Belt can hold up to 99 of each weapon, so pick up all the power-ups you can find. You can never, *ever* have too many weapons!

## Utility Belt Weapons

### REGULAR BATARANGS

Snap these with your wrist, fast and hard. It's amazing what damage these little blades can do. Regular Batarang power-ups give you 10 and even 20 more weapons at once.

### SMOKE BOMBS

These explosives can really put the heat on someone — if you toss them before your attacker gets too close. Rush up and pound enemies to dust while the smoke is still burning their eyes.

### DEADLY SWARMS OF BATS

No special aim needed here. Just release these vicious creatures and let them fly in the face of danger!

### GRAPPLING GUN

You can really pull a fast one with this specialized firearm. One zap and those clowns will call it quits!

### SUPER-SEEKING BATARANG

This high-powered weapon seeks out hoods and hooligans anywhere in the area, no matter which direction you throw it. And once it tracks them down, it takes them out! Demolish multiple goons with one throw when they're attacking close together!

## USING BATMAN'S SPECIAL TOOLS

*"Who's the man behind the bat?"*

— Catwoman

### Grappling Hook

Use the grappling hook to reach places too high to jump to, or where no foothold is available. Press the **D-Pad UP** and press **Jump** to fling the hook towards a ledge or opening. If there's something to snag onto, the hook will "catch." Then tap the **Jump** button to climb up the rope. Hold down the button and press the D-Pad UP or DOWN to lengthen or shorten the rope.

You can also use the grappling hook and rope to swing from place to place over treacherous dangers below. First hook the rope, then press the **D-Pad RIGHT** and **LEFT** to swing back and forth, or to swoop on the rope from one place to another.

### Batman's Cape

You can spread Batman's cape and glide through midair. This is especially useful for collecting power-ups in hard-to-reach places, and dodging damage in dangerous areas, like over spiked floors.

To glide, press and hold the **Weapon Attack** button during a fall. (If you like, you can tap the button repeatedly to flap the cape like bat wings, although this won't affect your glide.)

Flight Power

You start your combat with a certain amount of flight power. Each time you glide, you use a portion of it. Collect Cape power-ups to restore some of your flight power.

### Batman's Boots

The soles of your boots are invincible to fire, bullets, bombs, electricity and other deadly dangers. Learn the trick of kicking to shield yourself from damage.

## BATMAN'S LIVES

*"I have but one pet cause today: Ban the Bat!"*  
— Catwoman

You may not have 9 lives like Catwoman, but you can start your battles with up to 7 lives (chosen on the Options panel). You can extend your Health bar and increase your number of remaining lives during combat by picking up Regular Hearts, Pulsing Hearts and Batman Masks.

Your Health      Lives

**Regular Hearts** restore 4 units of health.

**Pulsing Hearts** top off your Health bar at full strength.

**Batman Masks** give you an extra life.

Each time you start a new level, your health is restored to full capacity, although your weapons count remains the same.

## STARTING A LIFE

You start out with 3, 5 or 7 lives, depending on your setting on the Options panel. Each time your health runs out, you lose a life. You will return to battle as long as you have lives left.

In the Driving game, you start the stage over. In the Platform game, you reappear on or near the spot where your health ran out. When you lose all your lives, you have the option to continue or quit the game, or the game may end.

## CONTINUING A GAME

If you choose to go on, press **Start** on the Continue screen before the timer reaches zero. You will resume the game at the beginning of the *act* (not the stage or level) you last played. Your health and number of lives will be restored to their full amounts, and you'll be outfitted with a new set of weapons in your Utility Belt.

## ENDING THE GAME

Dousing The Penguin in his own sewer slime is one sure way of ending the game. Another is losing all your lives and all your Continues. When that happens, you'll return to the Title screen, where you can go on to set different options (if you want) and begin a new, and hopefully more successful, onslaught against The Penguin and his menacing minions!

## SCENES OF THE CRIME

### Act 1: Streets of Gotham (Driving Game)

Peel out in the road-gripping Batmobile, chasing down a squad of gasoline-bombing bikers and getaway cars lobbing explosives. Bash into the special trash cans with the flashing signals to increase your missile supply. Save your missiles for the fire truck that tries to hose you down with a stream of flames!

### Act 1: Gotham City (Platform Game)

Scale the skyscrapers as you ascend to the heights. Dodge the gargoyles' fireballs and the spinning kicks of thug acrobats. Slap and kick them into oblivion! You can't destroy the exploding penguins, so your best bet is to move fast and duck the shrapnel. Catwoman cracks her whip

on the rooftops. She's almost too fast for your fists, so pepper her with Utility Belt weapons. Take a secret passage through the abandoned warehouse on 22nd Street — but don't get sucked in! Prowl and pummel your way through the ruined cathedral, climb with your grappling rope, and swing for your life in the final duke-out with The Penguin!

### Act 2: Winter Wonderland (Driving Game)

Ice slicks and snow-shrouded trees are as deadly as they are beautiful. A Ferris wheel turns merrily in the distance as you battle more mad leering bikers and speeding thugs. Use rapid fire to weaken your opponents. Ram and sideswipe to shove them off the road in bursts of flame!

### Act 2: Schreck's Wonderland (Platform Game)

It's an up and down battle! Use your weapons to take out the strong man on the roof — don't try to fight him hand-to-hand. Then fight your way through what's left of Schreck's infamous Department Store. The Red Triangle Circus Gang is here in force, lurking behind every wall, escalator and

chandelier. Search for hidden power-ups and watch out for that broken elevator.

### Act 3: City Limits (Driving Game)

Zig-zag along the ominous avenues of the outlying city sectors, under the glare of Batman's searchlight. You'll need a load of missiles to batter the battalions of battling brutes that terrorize the streets. Swerve to dodge the bolts of cold rolled steel deliberately dropped by the speeding trucker!

### Act 3: The Red Triangle Circus (Platform Game)

If you can't join the circus, beat it! Start at the animal cages and pummel your way through to the Ferris wheels. Stay off the ground — there's no way out if you drop into the bottomless pit. Don't look for luck in the House of Mirrors, where cruel clowns leap from behind the glass. Catch the

last train out of town. Don't rush across the cars or you'll end up under the wheels!

### Act 4: Sewers of Gotham (Driving Game)

Take control of the Batskiboat and dive into the cold, putrid sewers of the city's underbelly. Blast open the sewer gates and hurtle into the deadly depths. Twist and turn through the sludge and slime, dodging sewer posts and leaping drainage pipes.

Press the **D-Pad LEFT** or **RIGHT** for 360s as you fly off the ramps. Look ahead to see obstacles before you crash. And try not to get seasick!

### Act 4: Into the Sewers (Platform Game)

Go with the flow! Climb and slide through the labyrinth of pipes while battling the "sewer rats" that lurk in the murk. Be ready for attacks from all sides. Once you get to the second

complex, swing across the sludge-laden pipes to fight your way out of this polluted "waste" land. Clear the maze and face The Penguin's Toxic Slime Cannon!

## Act 5: The Penguin's Lair (Driving Game Only)

Enter The Penguin's water trap — a speedway of death! The only way past the kamikazi boaters is to annihilate them with ammo before they even get close. Play "bumper boats" with the rocking ice cakes. Your weapons won't do you much good against the heavy floes and the clown

buoys marking the channel. You'll just have to keep your wits and steer clear while maintaining the fastest speed you can!

## Act 5: The Penguin's Lair (Platform Game)

Save some flight power for this place, because you'll really need to glide. This is The Penguin's own sanctum, so be ready for his most diabolical devices and treacherous traps. Defeat The Penguin now and you'll take back Gotham City!

## SCORING

### Driving Game

The Driving game has 5 acts of 6 stages each. You clear a stage by defeating all enemies or passing all obstacles within the time limit. You must clear one stage in order to progress to the next.

When you clear a stage, you receive a point award based on your speed and time.

In a Full Game, you must clear each Driving Act in order to reach the following Platform Act.

### Platform Game

The Platform game also has 5 acts. Each one is made up of 3 or 4 levels, with several hidden bonus levels scattered throughout the game.

At the end of each level you must defeat a powerful, cunning boss whose tricks may surprise you. At the finale of almost every act, you'll tangle gloves to flippers with The Penguin himself, whose devious devices get more diabolical as the battles continue.

Your score is added up at the end of each level.

## BATMAN'S SURVIVAL TIPS

*"Shut up. You're going to jail." — Batman*

### Driving Game

- ◆ Accelerate to top speed only on the straight-aways. Taking it slower around curves will save you from spinning off the road.
- ◆ When enemies flash red, look out! They're about to fire.
- ◆ Shove or cut off enemy vehicles to ram them into poles and buildings for a quick kill.
- ◆ Conserve missiles for the big bosses. If you run out of missiles too soon, learn to replenish them by hitting trash cans.
- ◆ Take the sewer ramps at top speed to fly over oncoming obstacles. Learn to roll during flight by pressing the **D-Pad** LEFT or RIGHT at the top of your jump.
- ◆ Learn the locations of obstacles to clear levels quickly.

### Platform Game

- ◆ Power-ups are hidden in both *obvious* and *unlikely* places. Look for them everywhere. Try punching out walls and searching in out-of-the-way corners to find them.
- ◆ Hold the **D-Pad** DOWN to crouch, and continue pressing it to see what's below you. Press the **D-Pad** UP and continue holding it to check out areas above.
- ◆ Learn where the power-ups and level bosses are, so you can take the most direct route through the level. That way you won't have to battle every single enemy.

- ◆ When you can, delay picking up Hearts (health power-ups) until your Health bar is below half full. That way you get more health back when you do take the Hearts.
- ◆ Use up your regular Batarangs first, instead of other weapons. You can replace them easily with the ample supply of regular Batarang power-ups you'll find throughout Gotham City.
- ◆ Regular Batarangs and smoke bombs take care of most enemies. Save your swarms of bats, grappling gun and super-seeking Batarangs for the level bosses.
- ◆ To save weapons, use your fists and boots against low-level enemies and even against level bosses whose Health units are down to 3 or less.
- ◆ Swing from your grappling rope or glide with your cape to reach power-ups in out-of-the-way places or to swoop safely past dangers.
- ◆ Here's how to get wider swings:
  1. Hook the grappling rope.
  2. Hold down the **Jump** button and wait for Batman to stop swinging.
  3. Press the **D-Pad DOWN** to lengthen the rope.
  4. Press the **D-Pad LEFT** and **RIGHT** to start swinging.
- ◆ Be evasive. Don't go head-to-head against level bosses. Instead, use your weapons to weaken them.
- ◆ Don't rush into battle or hurry through a level. You have all the time in the world because you're not clocked.
